

Story-Book Arab King And Englishman Turned Moslem

Balk Mussolini's Wooing Of Valued Islam Friendship

Saud, Philby Keeping Faith With British

BY MILTON BRONNER

GREAT BRITAIN can thank two of the most prominent figures of modern times—Ibn Saud, master of Arabia, and H. St. John Philby, Saudi's English friend and adviser—for keeping obstreperous Arabs in line while war surges across Africa and the Near East.

Mussolini has wooed the Arabs persistently and ardently. Once, blatantly imitating former Kaiser Wilhelm, he proclaimed himself defender of Islam. From Bari, down in the southern part of Italy, for days and nights on end his radio has broadcast in Arabic, trying to stir up the people against the British. It has all been in vain.

ARAB VERSION OF PILGRIMS

Ibn Saud has parts of friendship with the British and so far he has followed the path. He is the most powerful Arabian monarch of modern days. Just before World War I he was the petty North Arabian king of the Wahabi sect, who are in the Moslem world what the Puritans were in the Christian world. They stick to the literal letter of the Koran, the Moslem holy book. They eschew drink and tobacco and are strict in observance of their religion.

The World War and its aftermath gave Ibn Saud his chance. At the head of his warriors he took Mecca and Medina, the Moslem holy cities, away from their new rulers and gradually spread his domain until he ruled most of Arabia.

Before he and St. John Philby met, Philby had a British passport. He was born in Ceylon in 1883, his English parents being tea planters there.

Graduating from Cambridge University, Philby entered the famed Indian Civil Service in 1908. He served in India until, in the war years of 1915, he bobbed up in Mesopotamia as British political officer. In 1917-18 he had special mission to Central Arabia. It was there he first met Ibn Saud.

Philby spoke Arabic and when called in native costume looked very much like a bearded Arabian chieftain. He and Ibn Saud became fast friends. This bond was enhanced when later Philby embraced the Moslem faith.

Philby quit British public service in 1925, but he never ceased to serve Britain unofficially. In June, 1929, he induced Ibn Saud to accept an interchange of diplomatic representatives between Britain and Arabia. And ever since then man, garbed in immaculate white edged with gold has been one of the sights of diplomatic gatherings in England.

PHILBY REALLY DEFENDS ISLAM
A Moslem, a resident of Mecca, where no Christian would be allowed, Philby has explored thousands of square miles of hitherto unknown Arabian lands.

He is a passionate partisan of the Jews. During a discussion in London on the rival claims of Arabs and Jews to Palestine, Ibn Saud heard Philby, like a bearded lion, literally roar out the Arab case. The occasion was a luncheon.

The season was Ramadan, the

Ibn Saud's son, Amir Saud, crown prince of Arabia.

Ibn Saud, shown at one of his Arabian palaces. Hafa Wahba, left, is Arabian minister in England. Abdullatif Sulaiman, right, is Arabian finance minister.

holy period of the year for Arabs. Like a good Moslem, Philby neither ate nor drank anything, not even water.

When the present war broke out and British leaders wondered what Ibn Saud would do, Philby reassured them.

HEPBURN ASKS \$480,000.000 IN NEW MONEY

Proposes Issue To Meet Demands Of Canada's War Effort

TORONTO, Jan. 22. (CP)—Issuance of \$480,000,000 in new currency to meet demands of Canada's war effort was suggested Tuesday by Premier Hearn, replying to Finance Minister Doherty's criticism of Mr. Hearn's proposal for currency expansion. The proposal to make new money available was made by Mr. Hearn in a speech in which he said that "the money market will adjust itself in Canada as it would in any other country."

INCREASE PRODUCTION

The issue of Canada at issue now is at \$80 per capita, Mr. Hearn said, while England's currency is at \$65 per capita and that of the United States at \$70. This rate has not risen since the outbreak of the war. "I don't believe it is going to rain, but I do believe it will increase production and put men to work."

He denied his proposal was a move toward inflation, adding that competent economic authorities considered the central authority in control of money can direct expansion to meet economic requirements. "That is not inflation but common sense."

"My belief is we have not issued sufficient new currency to meet our expanding war effort, particularly when our national security is at stake. There are still unused raw materials, yet relief remains one of our great problems."

WARREN'S SURVEY

He said the attention warrants a survey to determine whether currency should be expanded and Mr. Hearn should not remain the sole judge as to the amount of money to be issued.

"Mr. Hearn says that I have been right regarding the monetary inflation up to what he has done already—about \$480,000,000, but he says I'm wrong to want to go further. He is the financial director of our currency needs. I am the present situation warrants a study to see that the currency we have issued is sufficient. But he sets himself up as the sole exponent of the needs of the national economy."

Referring to what he termed Mr. Hearn's charge that he was creating financial panic, Mr. Hearn said: "Mr. Hearn's threats before the Dominion-practical conference on the day picture of financial Canada will do more toward creating such a state of panic than will a well-timed statement with regard to our monetary system."

Mr. Hearn quoted Mr. Ian

Airman's Skill Prevents Crash Of His Machine

PARIS, Oct. 22. (CP)—Flying skill of a Royal Norwegian Air Force pilot, whose name has not been disclosed by R. N. A. F. authorities, may have averted a serious airplane crash near here Tuesday.

The low-wing training plane, with two occupants, ripped its tail fabric when it hit heavy and telephone wire while swinging in line for a landing forced by weather conditions. But after hitting the wire, the plane gave the engine machine sideways into a clump of trees, smashing the plane's right wing entirely and damaging the left wing and propeller as the plane skidded to earth with a crash. Neither occupant was injured.

Smaller Butter Servings Urged By Trade Board

TORONTO, Jan. 22. (CP)—The wartime prices and trade board said in an interview Tuesday that the board is urging "half-pound" servings of butter to divers in restaurants and hotels to avoid a shortage.

"We are not asking Canadians to give up butter," Mr. McKinnon said. "We feel that if housewives will avoid waste and if hotels and restaurants will cut down on servings there will be no butter shortage before production starts again in May."

Named President

MONTREAL, Jan. 22. (CP)—Mr. A. Roginsky, Sr. of Montreal, was elected president of the Canadian Hebrew Association at the society's 10th annual convention. Vice-presidents included Mrs. A. H. Goldberg of Calgary.

Marketing as saying before the three-day inquiry in 1938, when Mr. Roginsky was minister of defence, that the defence department would be run on money and money is everything when you're running a department."

SAYS ARSENAL DROPPED

Discussions were then ensuing as to whether a government arsenal at Valparaiso cost \$30,000,000 to \$35,000,000 but had to be dropped because of financial stringency, Mr. Hearn said.

"There you have money in the driver's seat when you cannot develop an arsenal because they hesitated to touch the money with which to complete it. The authority for the need of this arsenal was General McNaughton, greatest military authority Canada has."

Retracting his assertion the currency situation warrants a thorough survey, Mr. Hearn asked: "Who is to say one is advocating robbery of money or giving comfort to the enemy when such an issue is at stake?"

MEDIUM GRADE WOOL IS BEST GROWERS TOLD

REGINA, Jan. 22. (CP)—W. W. Thomson of the Saskatchewan Co-operative Wool Growers' Limited, in a life report to provincial shareholders of the Canadian co-operative organization here Tuesday, said sheep producing fine wool are not as valuable at the present time to the producer as the sheep producing medium grade wool.

He said before the war the finer wools were bringing better prices, but now they are below the level of the medium price wool.

Lack of export trade was blamed as one of the chief reasons for the drop in price of finer wool. Mr. Thomson said the lack of sufficient combing machines in Canada is another factor.

"Since the war trade to England has declined greatly and the export market on wool to the United States is high," he said.

Medium grade wool producers are experiencing a boom in their product because of the call for it by the United States for the armed services. The price for this wool has consequently risen in the last year.

Turkish Police Fear Murder Of Polish Citizen

ISTANBUL, Jan. 22. (AP)—Turkish police are investigating the disappearance of Rumon Mikosinski, chairman of Rumon Mikosinski, a former Carist officer, had asked many Polish refugees to make their way out of Istanbul, and Istanbul police suggested the possibility that he had been slain for political reasons. He had made frequent visits to Romania.

Mikosinski was a Polish citizen. He was reported to be a pilot in the Royal Air Force.

DID YOU TAKE A LAXATIVE TODAY?

Do you really know why constipation is so harmful? You probably know that constipation sets up poisons in the large intestine. But do you know that these poisons seep through the walls of the colon and infect the bloodstream? They set up toxic accumulations in kidney and liver and are contributing causes of rheumatic pain, sciatica and backache.

Most laxatives only act in the colon. *Krusken's* does more. It is the laxative with double action. Besides ridding the colon of stagnating waste matter, *Krusken's* mineral salts have a drastic action. They flush the kidneys, help to clear the blood, are all poisonous matter, and so protect your whole system from that form of infection.

You can get *Krusken's* from all drug stores. Prices 25c and 50c.

HEARING OPENS IN DEATH CASE CALGARY COURT

CALGARY, Jan. 22. (CP)—During preliminary hearing at police court Tuesday of Albert N. Wragg, St. Calgary, charged with manslaughter arising from the death Christmas day of Private D. F. Lee, 29, Scottish Highlanders after an accident, one soldier testified he sat in the cab of an ice truck and saw accused drive, while two others stated they saw a civilian at the driver's seat.

Wragg is a driver for a Calgary ice company.

During the inquest, Wragg denied driving the ice truck, which carrying about 20 soldiers, was involved in a collision with a private auto driven by J. Dickson. Fourteen soldiers were injured, while Mr. Dickson, his wife, daughter and a friend were also hurt.

IF IT WILL HELP ALBERTA THE EDMONTON BULLETIN IS FOR IT

Backing The City

Edmonton taxpayers get a new record this year, having contributed approximately \$1,000,000 of their 1941 taxes during the first half of January. This is more than \$622,000 in excess of the amount prepaid last year, when payments also reached a new high mark up to that time. But the budget has not been struck for the year, the sum is somewhere in the neighborhood of one-third of the probable year. The tradition is unbroken that every year since the inception of the scheme more taxes have been paid in advance than in the preceding year.

The immediate result is that the city's overdraft at the bank has been wiped out, and money is in hand to meet a part of the cost of \$470,000 due on February 1st. The paying taxpayers have replaced the bank as the city's creditor, and cleared the way for the city to pay the bills for the operations of the year as they are amplified, and if the city saves money because of the advance payments, this will go to reduce taxes also. Those who prosper and those who do not. Whether the city saves or does not save, those who were able to take advantage of the "prepayment" discount are in pocket about 2 per cent.

The financial position of the city is strengthened indirectly as well as directly. This heavy payment of taxes in advance is a demonstration of taxpayer loyalty, which will count for something in stabilizing the city's present and credit.

Industrial Training

The Dominion department of labor announced a plan to increase the number of 100,000, for employment in industry. The course proposed is to run three months, in technical and vocational schools. Industrial education is being given to young men in the schools, and in all branches, industrial peace and steady production would be better assured.

A German prisoner of war and an internee escaped from an Ontario internment camp on Friday, but were back in the corral 24 hours. The escape was the first since the camp was opened on January 19. Nineteen have been captured and one was shot to death in resisting arrest. The police, guards, and all who have to do with preventing war prisoners and internees making their escape have been doing a good job, and deserve credit.

The direct object of course is to build up a supply of trained men for employment in the north. Long ago it was suggested that a shortage of labor for such employment was in prospect. With new munitions establishments coming into existence, a training program will help to provide men capable of fitting into the jobs and making these plants productive.

On the human side, the training will be an incentive bonus to men who find themselves adrift—tracked because they are not used to engage in one of technical work. The advantage that gained by them is not cut off with the war, but will help them make headway in the post-war days of reconstruction and reconstruction.

There should be no lack of recruits for the course, and the scheme should be broadened to accommodate the needs of the men themselves personally to learning the trades in which instruction is offered.

"Get Together" Propaganda

The emphasis with official agencies at Rome and Berlin is the point that there was complete agreement and sweet accord at the conference. It was suggested that the inference at least that there has been a pronounced feeling of cleavage among the people of the two countries, which has to be smoothed out by the close cordship between their dictators.

Closely enough a factual report of the propaganda would show that the Axis dictators are not so much in agreement as they are in the fact that they are in agreement. Hitler is satisfied with the new Mussolini has made of his adventures in the Mediterranean is rather too much for any normal being to swallow. And if the senior partner did not tell the junior partner what he thought of his performance in shanking steaks it must have been because he was acquainted with the man.

They agreed on what to do next is highly probable. What else could they do? They agreed on what to do next is highly probable. What else could they do? They agreed on what to do next is highly probable. What else could they do?

It is not as if Hitler had not been in the area. If he can be saved from complete disaster, he will continue to provide a target for shells and bombs which will be sent from Germany. So Adolf will lend him enough support to keep him in the ring, to keep the grayly lit situation "naturally" agreeable to any other criminal agency, a pre-emption of his day of reckoning.

All We Can Physically Accomplish

"Respectably, in public and private, I have told my colleagues in the defence and supply departments to go ahead and plan our war weapons on the basis of the maximum effort which Canada can physically accomplish, and that I would see that someone of other minds understood the chance that armed effort were forthcoming."

This paragraph is from a statement issued by Hon. J. L. Riley. It is the complete reply to suggestions that Canada was being restricted to the amount of money that is readily available. It is an official declaration by the Minister of Finance that such a

From The News Side Glances

By Harold L. Weir

All Britain has seized upon Monday's meeting of Hitler and Mussolini as indicating the formulation of new invasion plans by the Axis powers.

The Daily Express, black glass and chromium fronted Lord Beaverbrook, screamed a front page warning yesterday that the dictators have held a "last conference before the attack on England."

With the so-called invasion plan smashed over and over again by the Royal Air Force and with winter weather making high seas in the English Channel, it is difficult to see just how often the warped brain of Hitler could hope to engineer an assault on Britain without complete disaster.

It is, of course, the most other side of folly to discount the possibility of almost any kind of move on his part.

While it is reasonable to believe that much of his fanatic self-confidence has melted away before the blustering blast of adversity, he must still be given credit for audacity.

An invasion attempt is possible, then, but not very probable. The readiness with which the British see an impending invasion in every new move made by Hitler and his associates is more likely to be a result of the fact that they have nothing better than to come to physical grips with the Hun horde that are just now in the making.

The invasion which was a nightmare a few months ago has become an event most ardently to be desired.

Nothing less than the high state of British morale than that.

An increased fog of mystery hangs over the meeting between Hitler and Mussolini at which all this is supposed to have been planned.

The consensus of opinion is that the Italian leader made a desperate appeal for Hitler's aid against the Greeks in Albania and the British government has refused to do so.

Some Nazi aid might be given in Albania. But any German attempt to push the Greeks out of Albania would be a disaster.

There is also the grave possibility that Hitler's resistance might be offered by any Balkan country chosen by Hitler as his route into the Balkans.

From Hitler's standpoint, the Balkan situation is anything but satisfactory.

Indeed, something dangerously like a miniature revolution in the Balkans is now in the making. It seems to have broken out in Rumania.

When the Rumanian "Communist" government was overthrown, the Rumanian administration and that several German troops were killed in pitched battles.

It is not clear whether the Rumanian Iron Guard has clashed in many places with the Nazi army of occupation.

The railway bridge is about completed at Red Deer. The "Soo" railway will be built through a large portion of Dakota during the coming summer and intended to begin the following year.

The Rose-Hulst Co. are about entering into a contract with the city of Winnipeg to develop water power on a large scale on the Assiniboine river.

The Passing Show

By J.S. Cowper

Dictator Benito Mussolini is facing the toughest dilemma of his career. He has to choose between his partners for help, as his African empire is vanishing from him. This is a poetic justice. The African, stuck in the back of his mind, has become a boomerang.

The career of every dictator is interesting. He is the son of a gun. Louis XIV, General, Bismarck or Hitler. But none is in interest in the career of the man who is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

With the help of his partner, the man who is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

That the man who is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

He is the son of a gun. He is the son of a gun. He is the son of a gun. He is the son of a gun.

Three Poles Remember

By Helen Kirkpatrick in Chicago Daily News

Three Polish officers, on Christmas Eve, were thinking of two hours, when they had almost given up hope, he came back, leading his small brother, aged 6, by the hand. Under their weary faces, they had been through a long day of fighting. They had been through a long day of fighting. They had been through a long day of fighting.

They had been through a long day of fighting. They had been through a long day of fighting. They had been through a long day of fighting.

Looking Backward

From The Bulletin Files

1891—30 Years Ago

Incorporation is now under way for the Buffalo Lake and Battlement Railway, Coal and Iron company.

The railway bridge is about completed at Red Deer. The "Soo" railway will be built through a large portion of Dakota during the coming summer and intended to begin the following year.

The Rose-Hulst Co. are about entering into a contract with the city of Winnipeg to develop water power on a large scale on the Assiniboine river.

1901—40 Years Ago

London: Queen Victoria is slowly passing away, and her death is expected at any moment. She lies at Osborne, Isle of Wight, in a semi-paralytic and almost speechless condition.

Proctor: The Boer captured a train laden with mining materials between Brugsart and Balmoral.

Colony: The steamer Lake Erie sailed for Canada with 400 members of the Strathcona Hotel.

Niagara Falls: John W. Cress and John Marsh, of this city, tried to cross the Niagara river on a raft. The raft was destroyed by the force of the water, which was carried into the rapids. Water was swept over the falls, but Marsh was rescued.

1911—30 Years Ago

Washington: The reciprocity agreement between Canada and the United States will be signed by the President.

1921—20 Years Ago

Calgary: The U.F.A. declared by resolution that the British Empire will not support any candidate for provincial or federal honors who will not pledge himself to the initiative referendum and recall.

1921—20 Years Ago

Calgary: The U.F.A. declared by resolution that the British Empire will not support any candidate for provincial or federal honors who will not pledge himself to the initiative referendum and recall.

PROVINCIAL BRIEFS

C. C. F., SOCCED GROUPS ACTIVE BAWLF DISTRICT

C.C.F. and SOCCED credit parties are active throughout the Camrose constituency. C.C.F. members and friends met at the Rustel both on Friday evening. At a further meeting the new slate of officers was elected as follows: Jean Linton, president; August Youngberg, vice president; Peter Munn, secretary; treasurer, directors: Mrs. Rustel, Mrs. Russell Peterson and Messrs. Tom Sully, Clarence Hanson and P. O. Nelson.

A meeting of the executive of South Bawlf Social Credit group took place at the home of Mr. and Mrs. F. Anderson Tuesday evening. C. I. Sayers, Meeting Creek, C.C. candidate, Morley, Watkinson, Camrose, president of the Camrose constituency, and Martin Leask held a series of about meetings with the numerous groups within the constituency last week.

The North Bawlf Social Credit group met at the home of Mr. and Mrs. George Murphy, president, recently Geo. Plante, Jr., is president. The Camrose Social Credit group was re-elected Friday evening. The new officers are: Grant Bergquist, president; Elmer Lohr, vice president.

The Catholic Women's League met at the home of Mr. and Mrs. Robert Hestonizer recently, when Mrs. George Murphy, president, presided. Following the business session lunch was served.

Billy Linton, son of Mrs. Albert Linton, was home for a holiday with his mother this week. Billy is training in the Canadian navy.

STETTLER SCOUTS HOLD SERVICE FOR Founder Of Scouts

A memorial service for the Chief Scout was held here today in the Bony theatre.

Rev. Dr. Hart acted as chairman and Rev. T. H. Chapman acted as Lord Baden-Powell's life. He used as a text for his talk, the Scout motto "Be Prepared" and remarked on the fact that "Be Prepared" is the motto for the "Prepared" or Baden-Powell.

The First Stettler Troop, Boy Scouts, and the Cub Pack attended Mr. Brimacombe Scout promenade.

Rev. Chapman led the Cub, who are at present without a Cubmaster.

THE ANNUAL MEETING OF THE Fort Saskatchewan branch of the Red Cross was recently held in the town hall.

A report covering the recent drive for funds was given by Mrs. W. D. Bouchard, Quebec minister of the campaign committee. It was agreed that an effort should be made to secure a larger percentage in membership and have a substantial bank balance.

All officers were re-elected for another year: President, C. N. Peterson; vice president, M. J. Peterson; secretary, J. D. Peterson; treasurer, J. D. Peterson; and J. D. Peterson.

At a regular meeting of the Airdrie branch, held at the home of Mrs. Robert Hestonizer recently, when Mrs. George Murphy, president, presided.

Following the business session lunch was served. Billy Linton, son of Mrs. Albert Linton, was home for a holiday with his mother this week. Billy is training in the Canadian navy.

LOUGHREY

The local U.F.A. held the annual meeting in the Community Hall Saturday afternoon. According to reports the U.F.A. has made much progress during the past year. It has nearly doubled its co-operative purchasing activities, shows an increase in membership and has a substantial bank balance.

All officers were re-elected for another year: President, C. N. Peterson; vice president, M. J. Peterson; secretary, J. D. Peterson; treasurer, J. D. Peterson; and J. D. Peterson.

Looking them Over

JACK KELLY

It seems there are many citizens around these parts who like their hockey games close for there was mighty little action comment visible as some 1,000 fans sat in the arena after last night's game in which the Flyers shut out the Nelson Leafs and the Leafs did the same thing to the Flyers.

For those who like plenty of fast action, last night's affair was satisfactory. Both sides played plenty and kept trying for the full 60 minutes of play. The customers had no reasonable kick about that.

However the more critical fans, who when they see a play go by, wince, were home shuddering.

Nelson Leafs certainly didn't last any. Despite the fact they are on a rough road trip around the Alberta League, they seemed to have just as much speed and zip in them as our Flyers who have been resting quietly at home since their tilt with Calgary here last Wednesday.

The time has come when the Flyers will have to start showing something or else they must certainly will not be among those present when the league playoffs start just a month from now. In their last two games they haven't shown enough scoring from their plays to worry a good junior team.

Why they should suddenly lose what goal mouth technique they did have is something that Coach Lefty Grove and the club executive are undoubtedly pondering over today. Personally I long gave up trying to solve much mystery. There may be inside reasons, outside ones—none at all. But regardless of what they are, the time has come when the Flyers will have to start showing something or else they must certainly will not be among those present when the league playoffs start just a month from now. In their last two games they haven't shown enough scoring from their plays to worry a good junior team.

I know that hockey clubs are more likely to go into reasonable slumps than any other kind of team and it must also be acknowledged that the team is still without the services of Hockey, Dutchak and Alex West and that they played last night with just 11 men in uniform against 14 players in Nelson. However that fails to explain why Eddie O'Keefe, Joe Brown, Les Bird and Ducky Skinner were unable to show more than they did.

Personally I think it would help a lot if the league scoring standards were published until the regular schedule was finished—and by that I mean just what you suspect I do.

Whatever the causes were, the passing last night was terrible. Personally Flyers played clear across the ice to where there were only Nelson Leafs. When they did get the range of another Flyer, the pass was generally the kind you would have to have a laser beam to handle at all. If some one can tell me why senior players with the records the Flyers have should be making that kind of passes, I will be greatly obliged.

☆☆☆

Running Up The Strays

DICK BURCH of Montreal, Canadian badminton singles champion, was an Edmonton visitor on Sunday and Monday and dropped in at the Edmonton Badminton club for break workouts each day. While the Dominion championships have been called off for this year, many are planning on carrying through provincial championships. A city title tourney is likely to be arranged here shortly. While a number of good players are now on active service, there are still enough left to make such a tourney worth while.

Sparks from the Hot Stove League: There appears to be a present that the Boston Bees will be bought by one of the groups reported interested. Neither are there any further indications that the Yankees deal will go through. Larry MacPhail has booked a 30-game exhibition tour for the Brooklyn Dodgers before they start their regular season. Who, what Larry went to do just about the club back account. We feared, now it is reported to be a berth in either the majors or minors. He failed out of the picture last season with a sore arm.

E.A.C. TO PLAY LEAFS TONIGHT

Maple Leafs and E.A.C. play a scheduled City Junior Hockey league game at the arena tonight at 8:30 o'clock.

A win for the Atlantic club will put the team on even footing with the Leafs in the league standings and will also give the boys an even break in long games played so far.

Both clubs are expected to be at full strength for tonight's encounter and it is rumored the Leafs are considering moving Ken McArthur from goal to a place on the wing.

Kena Pluse, the referee, was taken by Delaney, who has shown up well in his games as a referee.

In any event the game should be good at this club a very account for a win.

Cadomin Beats Mountain Park

EDMONTON, Alta., Jan. 22.—In a league fixture at Cadomin Arena Monday night Cadomin Juveniles defeated Mountain Park Juveniles 11-9 coming from behind a two goal lead in the second period and scoring nine goals in the third.

Leading scorers for Mountain Park were Marshall, Radnich and Woodstock.

Cheney and Big Mallett paced the Cadomin team with four and five goals respectively. Goals were also scored by Brown, Marshall, Martin, Voytek, Kena Pluse, Braden, Covell, Peck, Chessa, Dickson, Popovich, M. Meritt, S. Meritt, McKenna, Nindson, Gordon, Nakiduk, and others.

Referee: MacKinnon.

NEW YORK, Jan. 22.—(AP)—Andre Jaassuron of New York scored the upset of the indoor boxing season in the middleweight division Tuesday night when he gained an eight-round decision over Belloise, New York, at the Broadway Arena.

Jaassuron weighed 154½, Belloise 154½.

Belloise, who had lost two cracks at the middleweight title, was a 1-0 favorite to win.

Jaassuron rendered his attack on Belloise's body, scoring effectively at close quarters.

Fort Wins Both

Exhilarant in Edmonton Battle

PORT JARVIS, SASKATCHEWAN, Jan. 22.—On Saturday night the Lamont High School girls and boys hockey teams met at the Fort and both teams met defeat at the hands of the Fort High team.

The Fort Girls won by a 3-2 score. The Fort Boys won by a larger margin by scoring 7 goals to Lamont's two.

Sent To Flyers

SPRINGFIELD, Mass., Jan. 22.—(AP)—Eddie "Red" Shore, 30, bounced Tuesday night when Len Halderman, young center of the American Hockey League, Springfield Indians, a being sent to St. Louis.

Former of the American Hockey League, Halderman, who will be subject to immediate recall, is in his first year in pro hockey.

Feller Will Get \$30,000 This Season For New Record

CLEVELAND, Jan. 22.—(AP)—If Bob Feller's victories next season equal his 1940 record he'll get \$1,111 for each game he wins.

The Indians' fabulous, valuable right arm made baseball history Tuesday as Feller agreed a 1941 contract which will bring him an estimated \$30,000—highest salary ever paid a pitcher. The \$27,500 Boston Red Sox paid Lefty Grove is accepted generally by baseball circles as the most previously given a pitcher.

President Alva Bradley, beaming broadly, announced Feller received a "substantial increase" but no bonus clause.

Feller decided "success is selfish." Last season the 22-year-old veteran has paid \$30,000 or more, won 27 games. He declined to estimate how many he got in 1941, but commented: "I don't care how many I win just so we win the pennant."

REDS CONFIDENT THEY CAN TAKE PENNANT AGAIN

CINCINNATI, Jan. 22.—(AP)—

The "big third team for the Cincinnati Reds—we were the Brooklyn Dodgers, Inc." an organization out in North Dakota—specifically, at the Agricultural College there—has not yet made itself felt in the front office of baseball's world champion.

"We stand on modern history," commented Travelling Secretary Gabe Paul, when advised of the trend out in the wheelwads. "Modern history shows that you can't start a club, wave and we're in."

The incident merely served to point out again how high the Reds with 19 players, signed—black themselves in their own winter camp. Three years ago no official would say even "first division." In more than a whisper.

Among fans the officials expect to bring them their third term is one which has been handed greatly by experts—Ken Paul, Duffering and Bucky Walters turn in 20 and 21 games for the third straight year.

The official attitude is that "there is no reason in the world why they can't win at least 40 this year."

Two games were scored in the first period, one in the second period, one in the third period, one in the fourth period, one in the fifth period, one in the sixth period, one in the seventh period, one in the eighth period, one in the ninth period, one in the tenth period, one in the eleventh period, one in the twelfth period, one in the thirteenth period, one in the fourteenth period, one in the fifteenth period, one in the sixteenth period, one in the seventeenth period, one in the eighteenth period, one in the nineteenth period, one in the twentieth period, one in the twenty-first period, one in the twenty-second period, one in the twenty-third period, one in the twenty-fourth period, one in the twenty-fifth period, one in the twenty-sixth period, one in the twenty-seventh period, one \$600,000.000 MARK PASSED BY INSURANCE FIRM

The fifty-fourth annual report of the Manufacturers' Life Insurance Company shows that this company has now passed the \$600,000,000 mark of insurance in force.

The British lion is amply supplied with his own and captured Italian trucks for carrying such material across the desert as may be required in the transport of troops. The problem of command, therefore, should not be seriously affected by the eventual attack on Benghazi.

AXIS BELIEVES U.S. TO ENTER WAR IN SPRING

This axis effort to block the Russian channel of British aid is seriously complicating the British campaign in Africa as well as the Italian effort to enter the Balkans. It may have forced the British high command to accept the Italian high command's resistance at Tobruk and open a road for more effective British counter measures by sea and air.

War Plans Drafted On This Assumption Informants Say In Rome

By REYNOLDS FAIRBANK
ROME, Jan. 22.—(UPI)—Benito Mussolini and Adolf Hitler at their recent meeting drafted war plans for spring which were based on the assumption that the United States was likely to enter the war before summer, reliable informants asserted today.

STRENGTH POSITION

The loss of this position would further shatter the Italian Libyan army, reported to be digging in for a last stand on the Italian coast. This is a 30-mile north-south strip from the coast at Derna to Mokil, desert coast road.

JEOPARDIZE ENTIRE ARMY

If he is resolved to risk everything to defend Benghazi to the last, he will jeopardize his entire army, now reduced probably to less than 150,000 men. He has few air planes left for air combat and his artillery is deficient. His supplies are so badly cut off that he is undoubtedly being seriously starved.

OTHER ALTERNATIVE

Marshall Graziani's other alternative would be to leave a comparatively small force at Benghazi and order the larger part of his army to move into Tripoli. His objective would be to reach the great port of Tripoli, 600 miles away from Benghazi.

James Watson's *Perfection* SCOT'S WHISKY

Imported by the Alberta Liquor Commission

Partial Text Of Churchill Speech

LONDON, Jan. 22.—(CP)—A partial text of Prime Minister Churchill's statement in the House of Commons today follows:

At the rest of all questions of manpower, the navy and the air force make the same demands upon us, but the greatest customer for man-power is the army.

The size of the army was settled some few weeks ago in the outbreak of the war. We have not altered that decision except in the extent of providing equipment for 10 more divisions. The scale of the army is the same as that in November, 1939. I am not going to say how many divisions it amounts to, but it is a very large and formidable force both for fighting overseas and for defence.

ARMED MEN

Counting the home guard we have about 4,000,000 armed men. At the time when the scale of the army was settled in 1939, a vast series of factories, plants and establishments were set on foot, sufficient to provide this army of the size set with all the equipment it required in connection with the content of Europe against the German enemy.

The bulk of the equipment is now coming into production. Many are actually incomplete. As these come into use, the production of the equipment is continuing, including those in the water, land and air.

FISH PROPOSES LOAN TO BRITAIN TO BUY SUPPLIES

WASHINGTON, Jan. 22.—(AP)—Representative Hamilton Fish (Rep., New York), today offered a counter-proposal to the British bill which called for lending Britain up to \$2,000,000,000 of federal money to help American-made war supplies.

Fish, a leading foe of the administration, said he would propose a bill which would provide quick action for the British loan, but without destroying our constitutional form of government.

Under Fish's proposal the federal loan agency would be authorized to lend money to Britain "on the most available security obtainable" and without the usual restrictions.

A monthly accounting would be made to Congress.

He criticized Woodrow Wilson, 1900 Republican presidential candidate, for approving the administration's bill with modifications.

"Mr. Wilson would be more helpful to his party if he would refrain from public comment on such vital foreign and constitutional issues until he has time to analyze them," said Fish.

Backs Britain

ALBANY, N.Y., Jan. 22.—(AP)—A constituent expressing "deep belief" of New York's legislature that Great Britain will "win through to the final victory" also so highly devalued the war situation that it was unanimous approval on Tuesday of the state senate.

SEMI-FINALS IN JASPER SPIEL PLAYED TODAY

Exclusive to Edmonton Bulletin
JANUARY 22.—The Maclean rink of Edmonton met Jack Hargrave Wednesday morning in the semi-finals of the Grand Challenge in the Jasper house. Bert Robinson, the only unbeaten rink, met Bill Hudson in the same brackets.

The winners of these two games meet in the final.

In the other primary event, the King Edward trophy, Dick Hargrave meets Jacobson, and Walcott meets Robinson in the semi-finals some time today.

In the Canadian National, Windh and Davis are out in the finals.

Play in the Veterans' competition will start today between Garvie and the winners of Edmonton and "The Travellers".

Britain To Buy Congo Products

LONDON, Jan. 22.—(CP)—The foreign office Tuesday night announced the conclusion of purchase and financial agreements with the Belgian Congo under which the United Kingdom will buy 128,000 metric tons of copper and other products within a year.

The products to be bought are "important to the final victory" and so highly devalued the war situation that it was unanimous approval on Tuesday of the state senate.

Threatened Strike In Aircraft Plant Reported Settled

SAN DIEGO, Calif. Jan. 22.—(BUP)—The Ryan Aircraft Company, which is manufacturing B-24's, B-26's, and other aircraft, today reported that a threatened strike by its workers early today reached an agreement that ended the threat of a strike scheduled for 7 a.m.

The settlement was reached, it was revealed, in a two-hour conference between Philip H. Ryan, president of the C.I.O. Pittsburgh, Dr. John R. Steiner, chief of the U.S. Labor Department's conciliation service in Washington, and Ryan and U.A.W. representatives here.

It is quite true there are not quite as many women employed as in 1938. There are two reasons—one that so many more men are now in the service and the other that there usually are not as many in the line of machine work, as only just coming into it.

It is of course, an error that an army mechanized makes an enormous additional demand upon the administrative branches which it depends upon for the fighting service. The other is that there usually are not as many in the line of machine work, as only just coming into it.
